Crystal Clean provides comprehensive hazardous waste treatment and disposal through our fully permitted TSDF and landfill services, offering safe handling of high-volume loads by truck or rail, in a variety of containers, including bulk end-dump, roll-offs, tankers, and all D.O.T. approved containers. Our on-site lab verifies all incoming waste to ensure proper characterization, and provides back-end LDR verification testing. We are authorized to accept a wide range of EPA RCRA waste codes, and CERCLA wastes. Our specialists can assist with waste classification, documentation, and manifests to ensure full environmental compliance. We work directly with Waste Generators, as well as with the broader Waste Broker market who are providing waste disposal and services. Backed by a nationwide network of over 130 service branches and treatment facilities providing additional support, we deliver reliable, compliant, and efficient hazardous waste solutions across the country.
